SUMMARY

Business analytics graduate student with accounting and logistics training, client-facing research experience, and hands-on work in AI evaluation. Translates evidence into Excel analysis, clear reports, and documented next steps.

EDUCATION

Johns Hopkins University, Carey Business School — Washington, DC
M.S. in Business Analytics and Artificial Intelligence — Expected Aug 2027

The Ohio State University, Fisher College of Business — Columbus, OH
B.S. in Business Administration, Accounting and Logistics Management — May 2026
GPA 3.67/4.0 | cum laude | Dean's List (8 terms) | Global Leadership Initiative (24-member cohort)

EXPERIENCE

SF Express | Supply Chain Management Intern, Remote — Aug 2025 - Oct 2025
- Built an Excel cost model for a proposed 215,000 sq ft automated sorting warehouse, itemizing equipment and system costs for medium vs. high automation
- Compiled a 14-item risk register with mitigations and flagged cost uncertainties, including peak volume

Ipsos | Social Intelligence Analytics Intern, Shanghai, China — May 2025 - Aug 2025
- Delivered monthly client-facing sentiment reports for Philips and Darlie oral-care brands, tracking 200,000+ reviews and social posts and recommending product-page and media adjustments
- Built Excel pivot tables comparing net sentiment ratio across 20 client and competitor SKUs on efficacy, taste, and packaging
- Documented keyword exclusion rules in the social-listening tool to keep monthly filtering consistent

Anhui Zhongxin Certified Public Accountants — May - Jul 2024; Dec 2024 - Jan 2025
Accounting Intern, Anhui, China
- Vouched journal entries to invoices and contracts, reconciled subledgers to the trial balance, and logged exceptions with supporting evidence for reviewer follow-up

Ohio State University, Office of International Affairs — Jun 2023 - Sep 2023
Peer Advisor, Columbus, OH
- Onboarded 60+ international students in English and Mandarin through check-in, document submission, and orientation; tracked open items and followed up until resolved
- Escalated immigration and housing questions to staff advisors; worked with staff to simplify recurring points of confusion in registration

SELECTED PROJECTS

BizHallu | AI Business-Analysis Evaluation — May 2026 - Present
Project website | Repository
- Built, with AI assistance, a reproducible 100-question evaluation of Qwen3-0.6B using a retail dataset with 541,909 transaction rows; traced errors to source evidence, including a correct revenue figure paired with an incorrect product ranking

CSM Copilot | Customer-Success Workflow Prototype — Oct 2026
Interactive demo | Repository
- Defined the audience and CSM workflow for an AI-assisted prototype using synthetic customer cases: evidence-based onboarding reviews, bilingual follow-up drafts, and traceable technical handoffs

LEADERSHIP

International Undergraduate Future Orientation (IUFO) — 2023 - 2026
Head of Event Planning, Columbus, OH
- Planned and ran 6 orientation and career events; coordinated timelines, speakers, venues, and volunteers, with pre-event communication and follow-up over WeChat

SKILLS

Tools: Excel (pivot tables, lookups, cost models), PowerPoint, Slack, WeChat
Data & AI: Python (pandas), SQL (basic), data cleaning and visualization, LLM evaluation, Hugging Face fine-tuning, API usage, AI coding tools (Claude Code, Codex), Git
Languages: Mandarin (native), English (fluent) | GRE 334
